CTH K & Lilly Rd. Intersection Project Begins

Waukesha, WIS. – Waukesha County will start reconstructing County Trunk Highway (CTH) K (Hampton Ave.) at Lilly Rd. in the Villages of Butler and Germantown and in the City Brookfield on May 23.

The project, which will be constructed by Payne & Dolan, Inc. of Waukesha, will involve replacing the existing temporary traffic signals with permanent signals. It will also include adding an island, resurfacing the entire intersection, and new pavement markings.

The road will be open to traffic during construction via a combination of existing and temporary lane configurations. The existing traffic signals will remain functional until the new signals are completed and operational. Motorists should use caution and expect delays within the construction zone. It is anticipated that all work will be finished by the end of July.

For more information, please contact Paul Barthel, Project Manager with the Waukesha County Department of Public Works at (262) 548-7740.
